MARY KAY® Microdermabrasion Test Panel

**A revolutionary 2-step process
with results seen
in as little as one application!**

What exactly does microdermabrasion do?

In a nutshell—it is a mini-facelift! Mary Kay has brought into our home a revolutionary system that until now has only been offered in a dermatologist office, costing anywhere from \$150-\$250!

Step 1: the Refiner contains the same ingredients that dermatologists use to polish and remove the upper, dead layer of dull lifeless skin to immediately energize and revitalize your skin!

Step 2: the Replenisher contains vitamins and anti-oxidants to nourish, smooth and soothe the skin and help protect against the environment.

The results below show a consumer study conducted after only one week of use , applying the products 2-3 times.

85%	Saw an improvement in skin texture
73%	Saw a reduction in fine lines
71%	Saw pores that looked smaller

Thank you

for completing this survey.
